

THOSE WE SERVE

- Uninsured
- Low-income up to 300% of FPL
- Adults age 19-64

ACCESS TO MEDICATION PROGRAM

Access to Medication Program (AMP) provides critically needed generic and brand medications to vulnerable Virginians at a wide range of health care facilities across the Commonwealth.

By providing access to **43** of the most needed generics, RxP can help reduce facilities' overall spend on medication, increase prescription pick-up rate for patients, and ultimately improve health outcomes for a population that cannot afford the rising cost for generics.

Patient is seen at AMP Clinic

AMP Clinic writes prescription and sends to RxP central-fill pharmacy

RxP central-fill pharmacy fills and ships prescription back to AMP Clinic weekly

AMP Clinic provides medication education along with prescription to patient

“This program will enhance our mission. We’ll be able to get medications a lot quicker and for a price cheaper than our local pharmacies..”

“Joining the AMP Program will allow us to allocate the medication cost savings to expand and develop new services for our patients.”

“This program will help with continuity of care...”

Benefits of Participation

The AMP Program serves patients up to 300% of the Federal Poverty Level (FPL)

BENEFITS TO CLINICS

- Ongoing access to a reliable formulary
- 90-day prescriptions
- Weekly order & delivery schedule to clinic
- Affordability - \$2.25 fill fee per prescription
 - A typical clinic can realize a 86% cost savings over retail pharmacy prices
 - Clinic can ask for a donation to offset cost of program
- Uses existing eligibility screening process and systems

BENEFITS TO PATIENTS

- 90-day prescription promotes medication adherence
- Unlike a retail pharmacy, if a patient cannot afford to pay, they will still receive their medications
- Patient isn't paying variable retail pharmacy costs which can range from \$10-\$111

"I could not have paid for this medication on my own. Now I don't have to choose between meds and meals!"
– AMP Patient

Requirements of Participation

- Complete AMP profile/application
- Sign AMP agreement
- Adhere to AMP Standard Operating Procedures
- Obtain a Controlled Substance Registration license to be an Alternate Delivery Site with the Board of Pharmacy (Rx Partnership will provide guidance)

AMP provides access to 43 medications in 86 different dosage strengths

Hypertension | Diabetes | Mental Health | Cholesterol | Other Conditions
