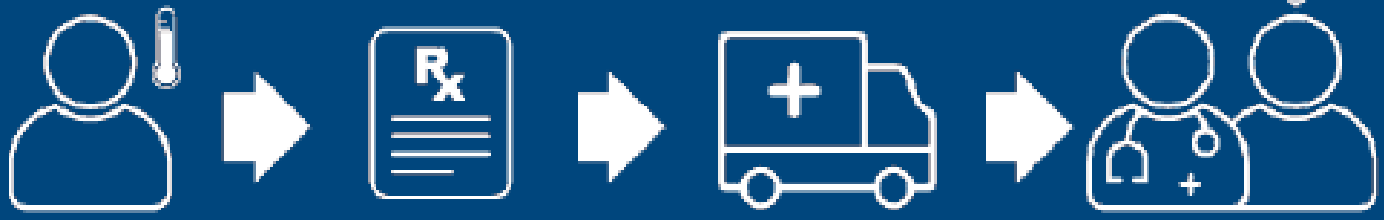
Access to Medication Program

WHO WE SERVE

- Uninsured
- Low-income up to 300% of FPL
- Adults age 19-64

Since 2017, the Access to Medication Program (AMP) has provided critically needed generic and brand medications to vulnerable people in Virginia at a wide range of health care facilities without a pharmacy across the Commonwealth.

By providing access to the most needed generics and brand medications from four pharmaceutical manufacturers, AMP can help reduce facilities overall spend on medication, increase prescription pick-up rate, and ultimately improve health outcomes for a population that cannot afford the rising cost of medications.



Patient is seen at AMP Clinic

AMP Clinic writes and sends prescription to RxP AMP Pharmacy

RxP AMP Pharmacy fills and ships prescription back to AMP Clinic weekly

AMP Clinic provides medication education with the prescription to patient

RX PARTNERSHIP

"AMP enhances our mission. We can get medications a lot quicker and cheaper than our local pharmacies!"

"Joining the AMP Program will allow us to allocate the cost savings to expand and develop new services for our patients."

"This program will help with continuity of care."

Benefits of Participation

The AMP Program serves patients up to 300% of the Federal Poverty Level (FPL)

BENEFITS TO CLINICS

- Ongoing access to a reliable formulary
- Flexibility in dispensing quantity up to 90-day supply
- Weekly order & delivery schedule to clinic
- Affordability - $4.25 fill fee per prescription
  - A clinic can realize a significant cost savings over retail pharmacy prices
  - Clinic can ask for a donation from patient to offset cost of the program

BENEFITS TO PATIENTS

- 90-day prescription promotes medication adherence and reduces transportation challenges
- Unlike a retail pharmacy, if a patient cannot afford to pay, they will still receive their medications
- Patients can receive medication education directly from staff
- Patients aren't paying variable retail pharmacy costs which can range from $10-$111

"I could not have paid for this medication on my own. Now I don't have to choose between meds and meals!"
-AMP Patient

Requirements of Participation

- Complete the AMP profile/application
- Sign an annual AMP Agreement
- Obtain a Controlled Substance Registration license to be an Alternative Delivery Site with the Board of Pharmacy (RxP will provide guidance)
- Adhere to AMP Standard Operation Procedures
- Screen patients annually for eligibility and maintain screening forms and financial documentation for all patients receiving an AMP medication

AMP provides access to a comprehensive selection of medications and dosage strengths, offering flexibility in patient care.

Hypertension | Diabetes | Mental Health | Cholesterol | Other Conditions
