**WHO WE SERVE**

- Uninsured
- Low-income up to 300% of the Federal Poverty Level
- Adults age 19-64

# Affiliate Clinics

Since 2004, Rx Partnership has provided medication in bulk to clinics with licensed pharmacies - **Affiliate Clinics** - for them to dispense to eligible patients.

By providing access to brand medications from four pharmaceutical manufacturers, as well as the most needed generics**,** patients can receive their medication **more quickly** and with **less paperwork** than when utilizing Patient Assistance Programs.

Medication is donated by a pharmaceutical manufacturer or purchased by Rx Partnership

Bulk medication is delivered directly to participating clinic pharmacies

The clinic provides a medical home for patients where prescriptions are written and filled

Rx PARTNERSHIP

"If not for RxP, 80% of our patients would not be able to get brand name pharmaceuticals!"

"Rx Partnership is a huge value. Without it, people would be falling through the cracks."

"This program will help with continuity of care."

# Benefits of Participation

Affiliate clinics serve patients up to 300% of the Federal Poverty Level (FPL).

### BENEFITS TO CLINICS

- Ongoing access to a reliable formulary
- Flexibility in dispensing quantity up to 90-day supply
- Stock bottles are on the shelf and ready to fill patient prescriptions - no running out of a medication.
- Changing dosage strengths for a patient is a simple process with no additional paperwork

### BENEFITS TO PATIENTS

- 90-day prescription promotes medication adherence and reduces transportation challenges Unlike a retail pharmacy, if a patient cannot afford to pay, they will still receive their medications
- Patients can receive medication education directly from staff
- Patients aren't paying variable retail pharmacy costs which can range from $10-$111

# Requirements of Participation

- Have a licensed nonprofit pharmacy
- Complete the Rx Partnership Affiliate Application
- Screen patients annually for eligibility and maintain screening forms and financial documentation for all patients
- Have the capability/capacity to electronically submit monthly utilization data
- Sign an annual Letter of Agreement
- Pay an annual participation fee (minimum of $300 with no maximum) of $1.25 per prescription based on medication utilization

**Affiliate Clinics have access to a comprehensive selection of medications and dosage strengths, offering flexibility in patient care.**

**Hypertension | Diabetes | Mental Health | Cholesterol | Other Conditions**
